NATIVE AT CROWLEY KILLED BY A NEGRO. Slayer Made Attempt to Escape But Was Held to Await Coming of Sheriff.

Globe, Ariz., Nov. 7.—At Crowley, on the Lower Pinto, yesterday morning, at about 11:15 o'clock, Neal Burgess, a negro barber, shot and instantly killed Juan Cabrera, a native, Burgess, it is said, after the shooting, made an effort to escape, but was captured and held pending the arrival of Deputy Sheriff Voris.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed immirent when Learness and the seemed immirent when Learness and the seemed immirent when Learness and the seemed in the see seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by all druggists, 50c and \$1.00. Trial bottes free.

MORE SCHOOL MONEY RECEIVED IN ARIZONA. Territorial Educational Facilities Will Benefit by the Govern. ment's Deposit.

Phoenix, Ariz., Nov. 7.—The governor's office has been advised that the treasurer of the United States, will shortly forward to the governor a draft for \$17,307,92, for the benefit of the public schools. This amount is 10 per cent of the revenue from the forest reserves.

Relieves Colds by working of the system through a content of the system throu

Take some reliable and safe di-gestant like KODOL for Dyspepsia. KODOL is the best remedy known today for heart burn, beiching and all troubles arising from a disordered is pleasant to take relief promptly. Sold DeWitt's Kidney and Bladder Pills Sure and Safe

Theater PRODUCTION

Little Change In Southwestern Mines Because of Low Price.

Jerome, Ariz., Nov. 7.—It seems quite certain that the drop in metal prices is to have little perciptible effect in Arizona copper production. In fact, it is generally realized that conditions are now much nearer normal than they were before the deciline.

Arizona's supremacy in the coppe Arizona's supremacy in the copper industry is due largely, if not entirely, to the low production cost possible throughout the territory. At the United Verde in this district, the cost is said to be about 5 cents per pound, while the average throughout the territory is not in excess of 7 or 8 cents per pound.

An average so low for the production of an equal quantity of copper tion of an equal quantity of copper is absolutely unparalleled in any other copper region in the world. These facis will account for the unnterrupted acivity evident through-

nterrupted acivity evident through-but this district.

The Little Daisy mine has made he remarkable record of sinking 93 eet in one month. Their recent trike of \$25 ore is still a matter of

uch comment. The Verde Grande machinery The Verde Grande machinery is now in fine running order, and the shoft is passing through a black slate formation liberally sprinkled with sulphides. Other neighboring operators are also active in opening up new ground. It is generally agreed that Jerome is not much ionser to continue a one-mine camp.

up new ground. It is generally agreed that Jerome is not much longer to continue a one-mine camp.

Still Producing.

Mansfield, Ariz., Nov. 7.—The fine showing at the Black Cap mine of the Marsfield company is the subject of much favorable comment among local mining men, as well as visiting investors. This mine has six different openings, in every one of which is in evidence either milling or shipping ore, or both, in abundant quantities. A total footage of 853 feet of workings is now completed, and an improvement in the quality of the ore is apparent with almost every foot of development.

At the 90-foot level both milling and shipping ore are being taken out. The ore in the imnel is of milling grade, and the quality is improving steadily. This tunnel is now in 145 feet southwest of the shaft. At the Sweet mine the showing is almost equally as good. A total of 64 feet of shaft sinking is reported by the contractor during the past month.

A station at the 259 foot-level is

A station at the 350 foot-level is to be put in at once. The test ship-ments made from the Mansfield with a view to making estimates for the installation of the mill are stated to have yielded highly satisfactory returns, and active steps are expected to be taken at an early date toward the construction of the mill.
